Subject: RE: SF Chronicle press inquiry - Dan Hirsch report FW: Hunters Point Report
Attachments: HPNS_CleanupStandards_Report.pdf

Please review the proposed response to the SF Chronicle asking for EPA's response to the newest Dan Hirsch's report.

Proposed response:

EPA has not reviewed the report published by the Committee to Bridge the Gap and will not be able to comment on it at this time.

Subject: Hunters Point Report

Hi Soledad,

There is a report out this morning from the Committee to Bridge the Gap about the cleanup standards that have been used at the Hunters Point Naval Shipyard (see attached). We would like to get the EPA's response to this and allegations raised in the report, including that the EPA allowed the Navy to move forward with obsolete cleanup standards for years that could put the public at risk.

We may follow up with more specific questions, but just wanted to get this in front of you ASAP, as we are planning on writing about this for today and it may be up online as early as this afternoon.

Thank you,

Cynthia
